EDUCATION

BSc in Computer Science & Engineering

2020–2025 · CGPA: 3.43 · Session: 2019–2020

National Institute of Textile Engineering & Research (NITER), University of Dhaka

COMPETITIVE PROGRAMMING & RECOGNITION

- ICPC Asia Dhaka Regional Contest 2024 — ranked 221st.
- Problem-solving practice on Codeforces, LeetCode, and HackerRank.
- Best Campus Ambassador — Creative IT Institute.

PROFESSIONAL SUMMARY

Full-stack software developer and CSE graduate working on LMS/ERP systems at RETINA and leading development at Intellisoft. Practical experience across React, Next.js, Node.js, and database-backed web applications, with work spanning APIs, administration tools, and deployment. ICPC Asia Dhaka Regional 2024 participant.

PROFESSIONAL EXPERIENCE

Software Developer · RETINA

Current role

- Contribute to LMS and ERP systems, including feature planning, software development, bug fixing, quality assurance, and enhancements to existing applications.
- Work with React interfaces and Node.js/Express APIs backed by MongoDB for academic and administrative workflows.

Lead Software Engineer · Intellisoft

Current role · Own IT company

- Lead software development and technical decisions, with responsibilities spanning project development and deployment.
- Develop company web applications using React, Express, and MongoDB, with administrative workflows for projects, team profiles, and ongoing work.

SELECTED ENGINEERING PROJECTS

1 Care Nest — E-commerce Storefront & Administration

carenest.shop

Next.js · React · Express · MongoDB · BullMQ / Redis

- Developed across a customer storefront, admin dashboard, and API supporting product variants, order management, and inventory workflows.
- The platform includes stock-aware cart validation, courier integration code, and queued Facebook catalog/publishing jobs.
- Deployment configuration covers GitHub Actions, Nginx, systemd services, and release rollback scripts.

2 Restaurant operations platform

Admin Panel · Client Website

Next.js · TypeScript · NestJS · PostgreSQL · Prisma

- Contributed to a restaurant platform with customer ordering, point-of-sale operations, inventory, and billing modules.
- The implementation includes restaurant/outlet data models, role permissions, tenant context, audit logging, and end-to-end isolation tests.

3 Intellisoft task & project platform

Vue · Cloudflare Workers / D1 · Prisma

- Contributed to project and task workflows with assignments, status tracking, calendar reporting, and scheduled email reminders.

4 Smash — E-commerce & Order Management

smashstorebd.vercel.app

React · TypeScript · Express · MongoDB

Developed an e-commerce application with checkout, order status updates, inventory tracking, low-stock warnings, and order email workflows.

5 **Gardashlar — Member Contributions & Fund Tracking**

frontend-gardshlar.vercel.app

React · Express · MongoDB

Developed member deposit, contribution, and investment tracking with authenticated dashboards and fund summaries.

6 **Bepari — Hardware & Sanitary Shop Management**

bepari-client-site.vercel.app

Built a multi-user shop management platform with product management, stock and receipt tracking, and customer-facing pages.

7 **RMC Rotaract — Blood Management System**

rmcrotaract.org

Developed a blood management system for a medical college, with donor and blood-request workflows, stock monitoring, and role-based access.

8 **Dr Tawhid Academy — Medical Coaching Management**

drtawhidacademy.com

Medical coaching management system.
